

# Linking Quality Graduates with Quality Practices.

Supporting vet students and new graduates through our network of Vetsure Accredited Practices

A worryingly high level of new graduates are today expressing job dissatisfaction, lack of support and fewer opportunities for ongoing development as missing from graduate roles.

Vetsure believes that the recruitment, support and development of new graduates is the only way forward, and that, with a structured development plan, new graduates can become the future leaders that the profession needs.

# Mutually beneficial for both practice and graduate.

## What to expect from a Graduate Friendly Practice:

- Defined objectives ✓
- Structured training ✓
- Weekly mentoring ✓
- Tools & feedback ✓
- Performance reviews ✓
- Fair wages & holiday ✓

Vetsure graduate friendly practices have all undertaken training tutorials to help the practice better understand how to support new graduates.

This includes setting objectives, mentorship, executing a successful induction and development programme over the first year, and monitoring performance through regular meetings.
